

Someone to Blame
Jefferson Berry

E riff (Intro 2x; Verse 8x)

She

Thought he had done her wrong

Not just a simple misunderstanding

That had gone on a little too long

It had nothing to do

With the rudeness and mood

With which she'd lose it on him.

Time

Unaccounted for was time for suspicion

E riff

With Someone to Blame

Deadline

On the project, they were counting on you

If not one thing, it was another

Ya, you always had an excuse

And when push came to shove

The Word from above was

To let you go

Slow

On the uptake, you had nowhere to go

Mismanaged expectations'

Giving birth to bad relations

Not Just Once but

On Many Occasions

When the call just had to be made

They knew they didn't have to pay

Someone to Blame

Someone to Blame

Lead Verse & Chorus

Some Say

Babies making Babies are to Blame

With their missing in action boyfriends

Remain unnamed in the claim

But the banksters and clowns

They cleaned out the town

And left us high and dry

The Fault lies

Between joblessness and lack of desire

Leaving town, make a new start

Play the victim, while knowing in your heart

Wasn't others who gave you your part

Or framed you for all your mistakes

Honey, you couldn't say

You weren't Someone to Blame
